MOM

What we offer.

We developed a completely new technology where we put live dealers in specialized studios, and stream them live for our players. To make it all possible, we developed a user-oriented game interface that is directly connected with the live stream. This way, we digitalize the game without taking out the human factor. Finally, we are proud to say that by doing this, we said no to algorithmic shuffling and set a new standard for what online gaming can be. Now you can enjoy the pure game in a fair, bot-free environment.

Additionally, we have a portfolio of ready-to-launch slots and are fully equipped to develop customized solutions to meet future needs and trends

SOLUTIONS

DEDICATED TABLES/STUDIOS

MiMa delivers truly incredible solutions of both Dedicated tables and halls to you with the intention of helping you make your brand identity stand out.

With the expanding option of **Dedicated halls**, a live casino operator receives one or a set of branded tables working only for their company along with a remarkable flexibility and high level of customisation. And it's the Dedicated halls solution that can perfectly reflect your casino brand and create a unique casino atmosphere for your players. At your request, even your own dedicated tables can be set up with individually branded equipment, language, dealer uniforms, etc. As things go, you will delight your players which will lead to an increased customer base and long-term business growth.

MOM

What we provide.

Per request we provide a **complete floor-to-ceiling construction of a gaming hall.**

EVERY SINGLE NOTION IN SUCH A GAMING SPACE IS UP FOR CUSTOMISATION

- hall colours
 - number of gaming tables
 - dealer attires
 - table fabric
 - playing cards design
 - screens
 - accessories
 - game types
 - languages
- and more...

The final product meets all the requirements of an operator and delivers the **look and feel of a real casino** to the players, thus elevating their engagement.

MiMa Design.

The ultimate freedom to design your casino the perfect way is the most commercially viable offer MiMa gives you as a business owner.

EVEN A SINGLE TABLE CAN CHANNEL THE ATMOSPHERE OF A HIGH-GRADE CASINO. THE TAILOR-MADE BACKGROUND IN EVERY VIEW ACHIEVED VIA GREEN SCREEN TECHNOLOGY ALLOWS TO CREATE A UNIQUE ENVIRONMENT FOR EVERY TABLE.

Your individual branding can cover all aspects of a live casino suite:

distinctive colours of gaming tables | table fabric
| game presenter attires | playing cards design |
screens | accessories | game types | languages ...

MiMa Branding.

There are many ways to highlight your company name with MiMa solutions.

Operators can choose to brand many key aspects of the Landing Page, Live Casino Lobby & User Interface elements.

Additionally, you can take advantage of other, more tangible alternatives. The upholstery of the gaming tables can feature your brand logos, as well as the Game presenters attires with custom-tailored patches and outfit colours.

The same distinctive attributes and symbols can appear on the card deck in a unique design. More physical attributes can be added on the premises of your hall: brand advertising elements, monitors with branded videos, neon signs, etc.

The room for creativity is truly vast!

(If not possible with Green screen Technologies)

MiMa Dealers.

A **proper and lively communication** between your brand and players is built by virtue of the croupier's intelligence and professional abilities.

Social skills are crucial in this case, and MiMa Game presenters are ready to invite your players to the games, cheer them on their loss and encourage them to try their luck again.

Our **attractive and experienced multi-ethnic ladies** will become the face of your brand and maximise your success by building strong bonds with your players.

Languages.

Putting aside the alluring interface for a while, the next determining factor for a successful live casino is **the communication with the players**. MiMa casino dealers are proficient in **English, Russian, Turkish, Georgian & more**.

In case your required language falls outside this range, **we are ready to recruit and train staff to provide the best solution for language-specific markets.**

MiMa Live casino api.

In correlation with the latest technological innovations, we offer our partners a **high-end Application Programming Interface**. Our live casino API enables the most efficient data distribution.

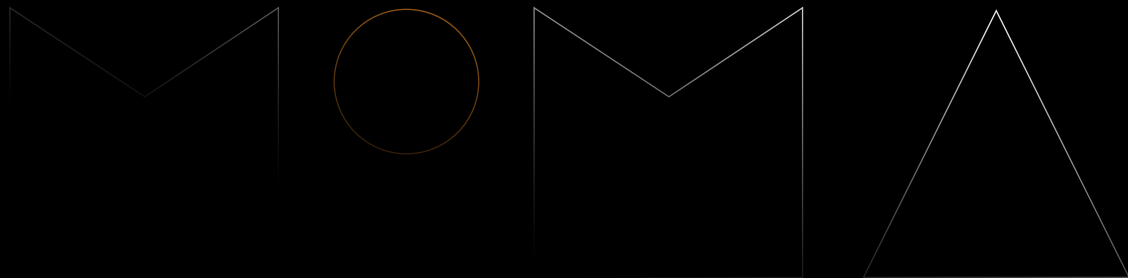

Live casino api integration gives all the benefits of automation, reducing the amount of human effort required. Hence, workflows can easily be updated to become faster and more productive.

New items and information can be released and implemented to the entire audience quickly and effectively through all channels.

We have a unique engineering expertise in the field of technology, as evidenced by the first of its kind Live Poker.

MiMa allows to personalise its product to match our partner's vision and brand.

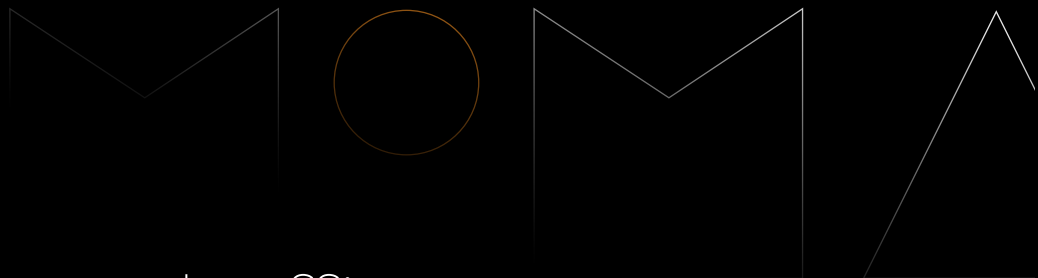

Why choose our live casino API?

MiMa as a live casino API provider guarantees the high quality and consistent performance of the services provided.

A **highly professional team** keeps our products running smoothly and steadily, ensuring our partners' interests are fulfilled.

Being **extremely well-engineered** and top-notch solutions, our offerings remain quite budget-friendly and meet most of the industry regulations.
